Research indicates that music study helps develop mental, physical, social, and emotional growth. Therefore, music lessons should be a standard part of every child's education. Music study provides structure for math, science, and reading comprehension, and stimulates self-expression. It helps develop discipline, poise, and confidence.

**Looking for a music teacher for your child or yourself?
Piano, voice, strings, brass or woodwinds?**

See the list inside for these and more, listed by cities in Central Arkansas.

**Looking for a group of like-minded music professionals?
...for professional association, group support, scholarships and student festivals?**

Look for names in or near your city and give them a call.
